

Robe Universal Interface™

The Robe Universal Interface is a multi-functional tool box with 2 DMX ports and one USB port.

This unit communicates with a PC or Laptop via USB. The Robe Universal Interface provides fixture software updates and with additional ROBE RDM-network software provides RDM (Remote Device Management) functionality. The DreamBox supports RDM - new control protocol featuring AutoPatch and Fixture Status Monitoring. The Robe Universal Interface can be used in combination with Robe Media Fusion software as DMX input from any DMX console.

Spécifications Techniques
